

WAUKESHA COUNTY BAR ASSOCIATION
PROPOSED LITIGATION SECTION

The Waukesha County Bar Association ("WCBA") is gauging interest in having a litigation section. The purpose of the section would be to participate in litigation bar programs, such as CLE presentations, mentorship programs, and social events, and to foster a collegiate and well-educated litigation bar.

It is contemplated that meetings would be held at least once per quarter. Meetings would include CLE presentations that are tailored to litigation attorneys. For example, there may be CLEs regarding e-discovery, e-filing, tort reform, and other topics of interest.

In addition, it is proposed that there would be social events at least twice per year to give litigation attorneys an opportunity to get to know other litigation attorneys in the area. For example, they may consist of organized after-work events, golf outings, and/or charity events.

Furthermore, the section may explore whether there is an interest in a mentoring program, identifying people who are willing to mentor or would like a mentor relating to the litigation practice.

Lastly, the section may participate in the current Bench-Bar Committee.

If there is enough interest, a section will be formed. If you are interested in this section, please complete the bottom of this form and send it to Stephanie Erickson.
